

Alumi Combi Light Screen

Designer: Nina Jobs

Nina Jobs designed Alumi Combi Light with the aim of encouraging colleagues to have spontaneous meetings wherever they want. The screens, which function both as sound absorbers and writing boards, are mounted on wheels for easy portability. The versatile writing boards have the same understated look as the other sound-absorbing screens in the Alumi series, allowing them to be combined in harmonious unity.

One side of the Alumi Combi Light Screen is upholstered in fabric. The other side with an e³ ceramic steel whiteboard from PolyVision.

Product range:

Writing Boards

Dimensions available (WxHxD mm):

806x1806x63 1190x1806x63

806x2006x63 1190x2006x63

Product description: Legs are not included in the product, but in this material description a standard choice for legs is also included.

Content^{1,2}:

Material	Specification	Weight (kg)	Share (%)
Steel	Whiteboard coil, leg set	11.06	29.7

Sustainability

As a part of our sustainability work, we are certified according to following standards and quality labels:

ISO 9001, ISO 14001 & ISO 45001

Management systems for quality, environment, and occupational health and safety.

We and our suppliers need to commit to Lammhults Design Group's Code of Conduct.

Möbelfakta

This product has been declared and approved to criteria of Möbelfakta:

Quality: This piece of furniture must meet established international technical standards

Environment: All stages of the manufacturing process must be green, from raw materials to finished product.

Responsible supply chains: All stakeholders in the supply chain take social, environmental, and ethical responsibility.

EPD

An EPD is available for the product. The EPD has been third-party reviewed and is published at EPD Norway. The results of the EPD shows that Alumi Combi Light Screen 1190x1806 releases 225.18 kg CO_{2e} from Cradle-to-Gate. The full EPD, where the results of other variants of Alumi Combi Light Screen also can be seen, is available here: [EPD - Alumi Combi Light Screen](#)

Acoustic facts

The impact of our acoustic products is presented at acousticfacts.com, where products can be compared in an objective way. This ensures that all technical data is accurate and meets international, European, and Swedish standards.

Abstracta's reuse service

We offer a recycling service for our customers. This means that we collect used sound absorbers and other products for renovation, reuse or recycling. To facilitate circularity, our products consist of exchangeable parts, which simplifies repair, reuse and recycling. Contact our sales support team for more information.

5-year warranty and 10-year spare parts warranty.

Care instructions

Fabric

To maintain the color and appearance of the fabric, it should be vacuum cleaned regularly with a soft nozzle.

Stain Removal for Polyester:

- Use colorless towel or a washcloth to absorb as much as possible of still-moist stain. Dried stains should be vacuumed.
- Wet the stain sparingly with a white pure cotton cloth, warm water and possibly a little pH-neutral cleaner.
- Dab the area with a dry cloth or colorless paper towel to absorb the moisture and stain.
- Repeat this process until the stain is gone.
- On the final repetition, use only clean water with no detergent added.
- Finish by dabbing up moisture with a dry cloth or paper towel.

Stain Removal for wool:

Dab or wipe gently with a damp cloth.

Global Goals

The UN Sustainable Development Goals are the basis of our environmental work. We focus on the five goals to which we can contribute most.

Goal # 3 – Good health and well-being

Goal # 5 – Gender equality

Goal # 8 – Decent work and economic growth

Goal # 12 – Responsible consumption and production

Goal # 15 – Life on land

Whiteboards and glass boards

Remove any protective film from the writing board and thoroughly clean the surface before first use. Moderately-used writing boards should then be cleaned a couple of times a week. The board must be absolutely dry when used. Use only pens intended for whiteboards. Replace the felt on the eraser on a regular basis.

Clean as follows:

- Wipe with approved cleaning fluid intended for whiteboards.
- Then wash away residual cleaning solution with clean lukewarm water.
- Wipe dry with a cloth.
- Repeat if necessary.
- Easier soiled paintings can be cleaned with only lukewarm water.
- Wipe dry with a cloth.

Note: Avoid detergents that are not intended for whiteboards (e.g. soap or detergent) when they can leave residues which hinder erasure.
