

grID

by Bulo Design

Bulo

grID

grID is a height adjustable modular system with a clean and minimal approach. A product development of Bulo Design, grID was first introduced as a simple sit-to-stand workstation arranged as individual freestanding units or double workstations. A solid and stable moving plane which could hold accessories and support an individual in a very functional way, without unnecessary ornamentation.

The architectural language is inspired by the minimalism of the Dutch De Stijl movement and one of its main painters and pioneer of 20th-century abstract art, Piet Mondriaan. In short, De Stijl was an artistic expression, a design philosophy, a movement and a journal espousing the value system of its' main collaborators. heralding international change in aesthetic and building styles, it is characterized by the reduction to essentials: straight lines, vertical and horizontal planes, and a simple color vocabulary of black, white, and primary colors. This focus on functionality and freedom of expression spanned several years until De Stijl fortified the new movements to the Bauhaus and International Style. One of our best-selling systems, grID forms workstation benches, individual desks, executive desks and meeting tables. All are available in both seated height or with our electronic height adjustable T-style or Sled-style base in the very intentional black or white.

Bulo Design

Bulo Design consist of architects, engineers, interior designers, industrial designers and craftsmen. We create unique and innovative collections through explorations in materiality, minimalism, functionality, longevity and sustainable business practices. With a passion for refined minimalist design and an eye for detail, our mission is to develop furniture solutions that invite the user to find pleasure in their workplace as well as at home.

Individual desk

- Melamine 25 mm / 1" thick
- Fenix hpl 13 mm thick / 0.5" thick
- Veneer 26 mm / 1" thick

Desk height adjustable 650 - 1300 mm / 25.5" - 51" or fixed height 750 mm / 29.5"

T-shaped base in black or lily white lacquered metal

The telescopic beam of the frame is always black. In the height adjustable desks the motor is hidden in the telescopic black beam, operated through a control box and a control panel with display and up and down arrow.

Troubleshooting: the height adjustment can be reset by lowering the desk to its lowest possible height

Accessories

- Grommets
- Screens
- Cable net for horizontal cable management
- Vertical cable management set

Individual desk

Freestanding module

Top in melamine, Fenix HPL or veneer - 800 or 900 mm / 31.5" or 35.5" deep

w.1450 x d.800 mm / 57" x 31.5"

w.1650 x d.800 mm / 65" x 31.5"

w.1850 x d.800 mm / 73" x 31.5"

w.2050 x d.800 mm / 81" x 31.5"

w.2250 x d.800 mm / 89" x 31.5"

w.2450 x d.800 mm / 96.5" x 31.5"

w.1450 x d.900 mm / 57" x 35.5"

w.1650 x d.900 mm / 65" x 35.5"

w.1850 x d.900 mm / 73" x 35.5"

w.2050 x d.900 mm / 81" x 35.5"

w.2250 x d.900 mm / 89" x 35.5"

w.2450 x d.900 mm / 96.5" x 35.5"

Desk for two persons with individual tops

- Melamine 25 mm / 1" thick
- Fenix hpl 13 mm thick / 0.5" thick
- Veneer 26 mm / 1" thick

Desks individually height adjustable 650 - 1300 mm / 25.5" - 51" or fixed height 750 mm / 29.5"

Available in freestanding modules or in linked modules.

T-shaped base in black or lily white lacquered metal.

The telescopic beam of the frame is always black. In the height adjustable desks the motor is hidden in the telescopic black beam, operated through a control box and a control panel with display and up and down arrow.

FENIX NTM® is a super opaque nanotech material. It combines elegant aesthetic solutions with state-of-the-art technological performance. The external surface of FENIX NTM® involves the use of nanotechnology that allows thermal healing of superficial micro-scratches. FENIX NTM® has low light reflectivity, is anti-fingerprint and features a very pleasant soft touch. It is highly resistant to scratches, abrasion, rubbing and dry heat. It significantly reduces the bacterial load making its surface hygienic and easy to clean. It is also liquid repellent and mold-proof.
