T-CADDY

The T Caddy family captivates with its distinguished design idiom. They function as personal accessory furniture directly at the workplace and increase storage volume within the user's immediate reach. Or they serve as mobile accessory furniture for team and project work, as well as for non-territorial work.
The top feature functions support a diverse range of uses with their additional storage, seating possibilities and organisation, and they can be customised to the personal requirements of individual workers or entire teams.

OPTIONS

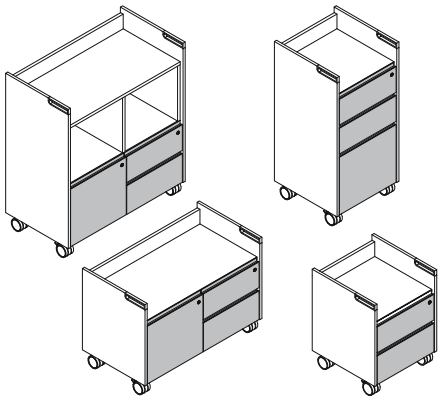

NICHE OPTIONS

Hinged doors
19 mm chipboard. With inserted handle in in anodised AL aluminium, WI white or SZ black, powder coated. Internal strap hinges, opening angle 120° or opening angle 110° and dampened.

Each niche can be individually fitted. The door hinge is always positioned on the outside of the body. The hinged door can also be connected via two niches to become a continuous hinged door.

With optional lock, this option always applies to the entire front. Lock position is always located on the opposite side of the door hinge.

Drawers
19 mm chipboard. With inserted handle in in anodised AL aluminium, WI white or SZ black, powder coated. The drawers are always self-closing, fully-extendable metal drawers, with optional shock absorption.

Each niche can be individually fitted. Drawers are either configurable as “1 drawer” in a niche or as “2 drawers” in a niche.
If two niches are stacked on top of each other, the structural floor between the two niches is removed.

With optional lock including locking bar for pull-out stop. The option always applies to the entire front. Lock position always on the right.

When installing hinged doors and/or drawers, counterweights must be installed due to the risk of tilting.
For more information see → chapter “Safety instructions”

OPTIONS

TOP FEATURES

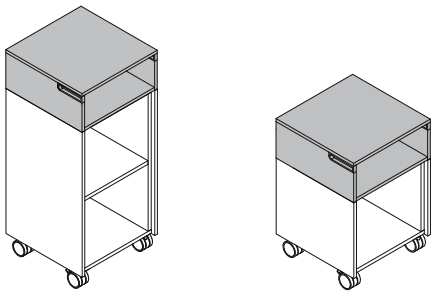

Top Flap, Top Box and Top Board are made of chipboard and are available for all Caddy types.
Top Flap, Top Box, Top Board and Top Seat can be combined with each other.

Top Flap

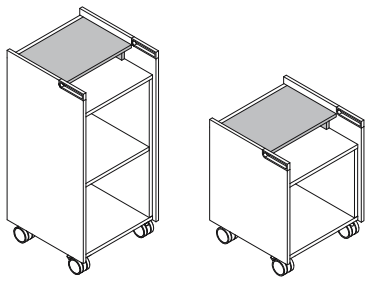

With rear pneumatic spring. Can be opened by simply lifting the flap.
A lock, consisting of an interchangeable cylinder with two keys
(one of which is foldable) is included. Position is always on the right.
Also available without lock.

Top Box

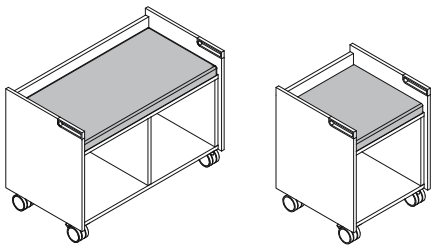

Top Board

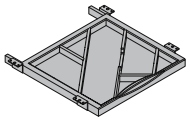

The Top Board is not affixed and can be removed.

Top Seat

The Top Seat is only available for the Caddy Mini & Small. It is made of polyurethane cold foam and covered by fabric or imitation leather.

ACCESSORY TRAY

The accessory pullout is always affixed to the bottom of the top floor. No drawer may be installed in the niche underneath.
Depending on Caddy type, one or two accessory extensions can be attached (left and/or right).

SAFETY INSTRUCTIONS

COUNTERWEIGHT

To ensure that the Caddys stand securely, iron counterweights are installed depending on the dimensions of the body and front.
Dimensions: Width 388 mm, depth 25 mm, height 60 mm. The weight is approximately 4,5 kg per counterweight.
All the combinations that are not listed to do not require any counterweights.

Small	Installation location	Number of counterweights
1 x 1 drawer		1
1 x 1 drawer and 1 x 2 drawers		2
1 x 1 drawer and 1 hinged door		1
2 x 1 drawer		4

Medium	Installation location	Number of counterweights
1 x 1 drawer; 1 hinged door		1

Large	Installation location	Number of counterweights
2 x 1 adjacent drawer		2
3 x 1 drawer		2
4 x 1 drawer		2

Given the weight, only niches with “1 drawer” are provided for the Caddy Large. The other niches can be configured as desired.
