T-PANEL BASIC

The T-Panel Basic creates workspaces and enables concentrated work. With its slimline appearance and rounded top edge, it conveys a modern character and enhances any workplace. The optional organisation rail allows it to be extended with various accessories. The design allows the fabric cover to be replaced if it becomes soiled or damaged and is synonymous with durability. Thanks to the use of fewer materials, a high proportion of natural materials and the ability to separate and recycle all components by type, the table panel is particularly sustainable. Its slim design and textile surface harmonise with various furnishing styles and offer flexible application options.

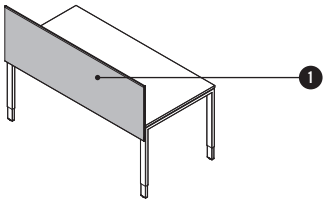

Design: Christian Horner

INSPIRING OFFICES. SINCE 1790.

PRODUCT DESCRIPTION

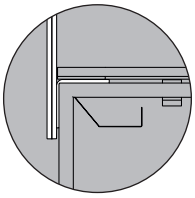

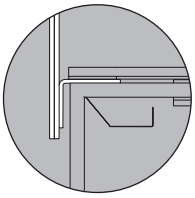

❶ **T-Panel Basic:** Can be used for LEVEL (LIFT) (PURE) (TWIN) family, Workstation and Workbench.

The core material consists of an 18 mm raw chipboard panel.
Surface: fabric cover with a zipper on the underside.

The individual components of the T-Panel Basic are not glued together and can be separated by type at the end of their life cycle and recycled. The fabric cover can be replaced by a Bene service technician in case of damage or soiling.
